Technology

Students should bring the technology they will use at school in September. For example, they can bring a computer and/or an iPad. We will be using these devices as tools for learning. Remember to bring cords for charging and protective cases as well.

Cell phones are another tool we use in the modern age. Students may bring cell phones.

Students will sign an acceptable use policy and can lose the option to have full access to their technology if they do not comply with the acceptable use policy.
